CHARTERED ACCOUNTANTS

INTERNSHIPS 2018

Who are we?

We are an independent accountancy practice with long established East of Scotland connections. EQ comprises 15 partners and over 100 staff with offices in Cupar, Dundee, Forfar and Glenrothes. Modern and energetic, we are one of the 15 largest accountancy and business development practices in Scotland and a leader in our field.

We previously won "Managing Partner of the Year" at the national 2020 Innovation Awards and are past finalists in the categories of "Best Medium Firm" and "Training Manager of the Year" at the Scottish Accountancy Awards. We are an ambitious practice and are committed to delivering an all round excellent service to our varied portfolio of clients. We are also part of the Kreston International network, operating in over 100 countries, which allows us to provide national and international services to our clients.

Our office locations provide a high quality of life whilst being able to practice within progressive business communities. We have sufficient resource to develop a pool of highly specialised expertise, whilst retaining the personal care and attention that our clients and staff appreciate.

We have a strong training ethos and are able to provide our people with a diverse training experience.

Summer Internships

Within our offices, we are often able to offer students the chance to come and work with us for a few weeks over the summer. This is a paid internship and gives the student the opportunity to see what working for a progressive accountancy practice is really like before making any final decisions about what they want to do after graduation.

As an employer of students, we also find it useful to employ potential graduates for a short time to see what they are like in the workplace and outside the formal interview process. As a result, we place as much emphasis on recruiting students for internships as we do when recruiting students for training contracts.

We are currently seeking applications for paid internships for summer 2018. Any students (preferably in their third year) who are interested in working with us for a period over the summer should view our "internship" vacancies on the ICAS website www.becomeaca.org.uk. The closing date for such placements is **Friday, 9 February 2018.**

RGU Placement Scheme

We also support placements through the RGU placement scheme for 3rd year students. We will be looking to support this placement again for 2018/19 and the placement will be advertised through the RGU Placement Office.

Contact Information

Jenny Law, EQ's Training and HR Manager co-ordinates our interns. If you require any further information please contact Jenny (or any of our HR team).
