

Sale of a Children's Nursery

Our clients operate as a children's nursery, with one located in Edinburgh and the other in West Lothian. They were looking to strengthen their business within the Edinburgh market by buying a second nursery within the city.

EQ Corporate Finance and EQ Healthcare were brought in by the client to provide support in selling their West Lothian nursery, ensuring the structure of the deal remained tax efficient, allowing them to release cash that can be invested back into their business.

The Transaction

EQ provided support by preparing various marketing documents, allowing for an increased awareness for potential buyers. We were also tasked with brokering the deal of selling the nursery, finding a buyer and completing to ensure the transaction would best suit the seller.

Once a buyer was found, EQ liaised with the seller, buyer and the legal agents, ensuring a smooth process for all involved.

After completion of the sale, the client was in a position to purchase a second nursery in Edinburgh and have already requested support from EQ in relation to the purchase.
